

# CAREERS

Monthly Newsletter

## Inside the Issue

### CAREER CHALLENGES

We are excited to begin our first Career Challenge. Catapult kits have been distributed to schools and we are excited to see what the students build.

### CWB FOUNDATION DONATION

Prespatou Elementary Secondary School partners with the CWB Foundation to upgrade the equipment in the metal shop.

### FIND YOUR FIT

Work BC Find Your Fit Tour will be visiting Dr Kearney Middle School on November 12, 2021

## CATAPULT CHALLENGE

After years of STEM activities, including towers, bridges, race cars, and rockets, one my favorites is the classic catapult challenge! I believe it incorporates all aspects of a quality STEM activity: easy math connection, engineering design process, student-driven learning, and hands-on fun!

Kits have been distributed to schools to participate in the district catapult challenge activity.

# EXPLORE IN-DEMAND CAREERS

## FIND YOUR FIT TOUR

*Work BC*

Students will first visit career activity stations where they can take part in a hands-on activity related to a specific career. These activities will help students uncover their strengths and interests, giving them the knowledge they need to get started with their career planning. They'll then move on to a labour market information station, where they can dig deeper into a career of their choice.

# SCIENCE GAMES

*Engineers and Geoscientists British Columbia*

**2022 Science Games – Register Now for 3-weeks of Hands-on of Science Programming**

With a focus on collaboration, connection, discovery and fun, Grades 1-6 students will embark on a 3-week science journey in February and March 2022! Through fun, interactive activities and weekly challenges, students will experience aspects of STEM (Science, Technology, Engineering and Math) through the eyes of their engineer or geoscience mentors. The Science Games Saturday Activity Sessions will be hosted on Zoom on February 26, March 5, and March 12, 2022. Spaces are limited!

## CWB WELDING FOUNDATION DONATION

*Prespatou Elementary Secondary School*

The Capital Equipment and Consumables Fund was established to support the advancement of welding programs by ensuring safe, high-quality equipment and learning environments are available to students in secondary welding and related technology programs across Canada. Since 2013, CWBWF has invested more than \$3.5 million in upgrading school welding shops, with nearly \$5.9 million in co-investment from educational and industry partners, for a total investment of more than \$9.4 million.

School District #60 is proud to work with partners like the CWB Welding Foundation to help our learners to work safely, use industry approved techniques, materials, and tools.
